

# Governor Profile

**Name: Steve Pendleton**

Role: Chair of Governors

For the first 18 years of my career I was a science teacher and I had various teaching and leadership roles in secondary schools in London and the South East. My last teaching role was in Southam College. Between 2004 and October last year (2020), when I retired, I worked for Warwickshire County Council, initially in school improvement. I became an Ofsted inspector and supported secondary teachers and headteachers across Warwickshire. In more recent years, I became involved with ensuring that disadvantaged and vulnerable children in Warwickshire get a good education. This included the children who attend provisions like Brambles.

I am a new governor having joined at the end of 2020. I am on the standards committee

I am a keen sportsman and also enjoy travelling. In 2018, my wife and I spent a year travelling around the world. An incredible experience!
